SEIS - Data Gap Report (FINAL, Oct2013) (Submitted 19Nov15).pdf

Hi Jeannie, Joe,

For your records, please see attached the final Data Gap report. It is dated October 2013, which is when we had received some comments on the final draft. Those comments were integrated from USEPA and CTDEEP at that time; no additional comments had been received since. The only recent edits were minor stylistic format adjustments for consistency with other SEIS documents. Thus, the date of Oct 2013 was maintained on the report since the information within it reflects information available at that time. Note that as agreed, this report will not be included in the SEIS as an Appendix but is part of the database on file for the study.

The report is also uploaded to the FTP site: <ftp://ftp.louisberger.com/>
